Location

Iztok has always been in great demand. Because of its quiet streets and wonderful location, Izток is truly cosmopolitan - home to more foreign diplomats than any other district of Sofia. Izток is close to the airport - just ten minutes by car while Joliot Curie metro station is just 250m from Cleves Este. Sofia Business Park is less than ten minutes by car.

There are numerous kindergartens and schools, shops, and an array of good restaurants around Cleves Este. A number of international business centres operate here, and Izток houses many embassies.

Despite being so close to the centre, this is an excellent base for relaxation: the Diana National Sports Complex is nearby; and Izток borders the largest park in Sofia, Borisova Gradina - with its lake, tennis courts and hundreds of acres of woodland, a perfect place for walking, bicycling and summer picnics.
